

SASB Mapping for Unilever Sustainability Metrics

The Sustainability Accounting Standards Board (SASB) has industry-specific sustainability standards which identify financially material topics and associated metrics. The table below summarises where relevant SASB disclosures can be found throughout Unilever’s reporting, based on the standards for the Household & Personal Products sector (the sector in which Unilever is normally classified given that this represents the greater share of our turnover).

Topic	SASB Metric	Unilever Disclosures
Water Management	(1) Total water withdrawn, (2) Total water consumed, percentage of each in regions with High or Extremely High Baseline Water Stress	<p>We disclose water withdrawn and water consumed in our annual CDP Water response.</p> <p>(1) Total water withdrawn: 30,171 mega litres withdrawn. 26-50% is withdrawn from regions with high or extremely high-water stress. Refer to Section W1.2b and W1.2d in CDP Water.</p> <p>(2) Total water consumed: 12,251 mega litres. Refer to Section W1.2b in CDP Water.</p>
	Description of water management risks and discussion of strategies and practices to mitigate those risks	<p>A description of our water management risks and strategies and practices to mitigate those risks is disclosed in:</p> <ul style="list-style-type: none"> • CDP Water (refer to Section W4) • Annual Report and Accounts (refer to page 30 and page 55) • Unilever website - Water Stewardship
Product Environmental, Health, and Safety Performance	Revenue from products that contain REACH substances of very high concern (SVHC)	Our Safety and Environmental Centre (“SEAC”) is responsible for ensuring that our products are safe and environmentally sustainable.
	Revenue from products that contain substances on the California DTSC Candidate Chemicals List	We describe our product environmental, health and safety policies and practices in our Product Safety & Product Quality Code Policy and

	<p>Discussion of process to identify and manage emerging materials and chemicals of concern</p>	<p>mandatory policies and standards to meet safety and quality commitments.</p> <p>Our approach to the safety of products and ingredients is outlined on the Unilever website - Products and Ingredients</p>
	<p>Revenue from products designed with green chemistry principles</p>	<p>We do not currently track revenue from products design with green chemistry principles as our objective is to integrate sustainable thinking across our products which are therefore designed in line with a number of green chemistry principles.</p>
<p>Packaging Lifecycle Management</p>	<p>1) Total weight of packaging, (2) percentage made from recycled and/or renewable materials, and (3) percentage that is recyclable, reusable, and/or compostable</p>	<p>Our packaging disclosures for (1) to (3) can be found in:</p> <ul style="list-style-type: none"> • Annual Report and Accounts (refer to page 59) • Unilever website - Waste-free World <p>(1) Total weight of plastic packaging sold in the period from 1 July 2019 to 30 June 2020: 690,000 tonnes</p> <p>(2) Percentage of plastic packaging made from recycled plastic in the period from 1 July 2019 to 30 June 2020: 11%</p> <p>(3) Percentage of plastic packaging that was reusable, recyclable or compostable in the period from 1 July 2019 to 30 June 2020: 52%</p>
	<p>Discussion of strategies to reduce the environmental impact of packaging throughout its lifecycle</p>	<p>A description of our strategies to reduce the environmental impact of packaging throughout its lifecycle is disclosed in:</p> <ul style="list-style-type: none"> • Annual Report and Accounts: <ul style="list-style-type: none"> - Planet and Society (refer to pages 28-32) - Our Risks (refer to page 47) - Sustainability deep-dives (refer to pages 58-60)

		<ul style="list-style-type: none"> • Unilever website - Waste-free World
Environmental & Social Impacts of Palm Oil Supply Chain	Amount of palm oil sourced, percentage certified through the Roundtable on Sustainable Palm Oil (RSPO) supply chains as (a) Identity Preserved, (b) Segregated, (c) Mass Balance, or (d) Book & Claim	<p>The percentage of sustainably sourced palm oil was 99.6% for the period from 1 January 2020 to 31 December 2020 (94.3 % from physically certified sources and 5.3 % from independent smallholder certificates). Palm oil disclosures can be found in:</p> <ul style="list-style-type: none"> • Annual Report and Accounts (refer to page 27) • USLP 10-year summary report (refer to page 25) • Unilever website - Sustainable Palm Oil
Activity Metrics	Units of products sold, total weight of products sold	We do not disclose total number of units sold as our product portfolio is so broad and diverse that an aggregate figure would lack relevant context or application.
	Number of manufacturing facilities	We occupy around 290 factories. See our Annual Report and Accounts (refer to page 12)
