- Strong cost savings programmes delivering €1 billion in the year. Accelerated restructuring plan progressing well.

GROUP CHIEF EXECUTIVE COMMENT

“The fourth quarter was a strong finish to a good year. 2007 marks the third successive year of accelerating sales growth and came with an underlying improvement in margin. This is clear evidence that our strategy of focusing resources on faster growing and profitable segments is succeeding.

The re-shaping of the business and the acceleration of our change programme are bringing real benefits. They make Unilever a more flexible and resilient company, better placed to meet the challenges of operating in a tougher economic and cost environment.

We therefore remain confident of achieving our 2010 goals – for an operating margin in excess of 15% while delivering consistent, competitive growth along the way.

In 2008 we expect underlying sales growth to be towards the upper end of our 3-5% target range and to see a further underlying improvement in operating margin.”
